Diagram illustrating the mapping of a 104B input stream to a 16B output stream (8 rows of 2B values).

Input Stream (104B): [45, 1, 2, 0, 3, 0, ...]

Output Stream (16B):

2d	01	02	00	03	00	00	00	5f	01	02	00	03	00	00	00
5c	00	00	40	00	00	00	00	6b	84	0f	00	7e	03	49	75
02	00	01	19	04	65	05	81	5e	71	5c	03	01	00	05	71
84	01	01	02	01	32	03	32	13	07	00	00	00	00	00	00
08	00	14	00	0a	00	63	00	08	00	37	00	08	00	70	00
00	00	00	00	00	00	00	00	00	00	00	00	00	00	00	00
00	00	00	00	00	00	00	00	00	00	00	00	00	00	00	00

Arrows indicate the mapping of input segments to output rows:

- 2B 0x14 maps to the first row.
- 2B 299 maps to the second row.
- 2B 0x0 maps to the third row.
- 2B 0x113 maps to the fourth row.
- 4B 1634566664 maps to the fifth row.
- 4B 0x0 maps to the sixth row.
